Gerhardt Braun RaumSysteme

Quantum

Enclosures for bicycle and rubbish container

Quantum is a functional and versatile system for many useful purposes, such as bicycle enclosures, rubbish collection points, tool sheds, firewood magazines, pergola, pram storage and smoking shelters. Individually customised for your requirements, Quantum fits every building conception.

Tessera

Blinds

With Tessera blinds you achieve façade-elements with high quality and aesthetically ambitions. You also achieve freedom in creativity, colouring and material selection. Thereby you realise optical exclusiveness with highest attainment of aim.

Elatio

Balcony and terrace cabinets

Complete and optimise your given space with our balcony and terrace cabinets. A wide range of colours, the different assembly options and various infill offer you variety and freedom with your design.

Imago

Sliding shutters

Due to its functionality and appearance, Imago façade elements convince as a decorative option to rolling shutters. Adapted to achievement and appearance, effective scopes of design are open for you.

Aptus
Carport systems

Aptus carport systems are a flexible and economical alternative to garages. We offer the basic-system as single-, double-, or multi-carports, open or closed, also with individually extensions like tool sheds or shelters.

Magnum
Parking boxes

Due to his high quality, robust materials, multiple corrosion protections, sound insulation and the simple handling Magnum means a safe investment. The closing system could be a up and over garage door, a sliding door or a sectional door. The boxes are completed with partitions from perforated steel sheet or grid.

Saverus
Storage, security and commercial applications

Our Saverus system for storage, safety and commercial applications will structure your premises perfectly. You create new rooms and fulfil the occupational health and safety regulations in outskirt areas as well as interior. Our systems are custom-made.
